Inaya Business Workspace: 6-Month Pilot Programme for Companies in Asia

India · Bangladesh · Sri Lanka · UAE · Saudi Arabia · Malaysia · Indonesia · Singapore · Philippines — November 2026 · Talha Waqas, Founder

Summary

We invite your company to a 6-month pilot of Inaya Business Workspace at 30% off, from **$5.59 a month**, to run your HR, operations, accounting, sales, purchasing and inventory in one secure system.

- **Priced in US dollars**, so the price doesn't move with exchange rates, and paid by bank transfer against our invoice.
- **Set up for you:** we create your workspace, import your staff, customers and products, and train your team, for a one-time setup fee from $29 for pilot companies.
- **Low risk:** 30% off for the full 6 months, cancel with 14 days' notice, and take all your data with you at any time.
- **Shaped by you:** pilot companies help decide what we build next. One pilot company's suggestion became our classic ERP layout.

Why it matters

Today	With Inaya
Staff records and leave in spreadsheets or on paper	Employee records, leave requests and approvals in one place
Customer follow-ups lost in chat apps	Customers, leads and deals tracked, with a full history
Invoices typed by hand, payments chased by phone	Numbered invoices in minutes, overdue invoices flagged automatically
Stock counted by hand, shortages found too late	Live stock levels with low-stock alerts and batch tracking
Important files on personal laptops	Encrypted company documents, shared securely and backed up
The owner asks five people to know where things stand	One dashboard showing what needs attention today

What's included

Every package includes the modules below, on Windows, Linux, Android and in the browser, laid out like a classic desktop ERP.

Area	What your team can do
People (HR)	Employee records, leave requests and approvals, department managers, onboarding checklists
Operations	Tasks, projects, approvals, automations, secure chat and video meetings
Accounting	Invoices, expenses, payments, general ledger, financial statements, AI bookkeeping assistant
Sales and CRM	Customers and leads, deals and pipeline, customer support desk
Purchasing and inventory	Suppliers, purchase orders, stock levels, warehouses, batches and expiry dates, production

Area	What your team can do
Documents	Encrypted files, secure sharing, e-signatures, generated invoices in English and Arabic
Appointments and email (Business and Enterprise)	Online booking page, team calendars, reminders, email campaigns to your customers

Made for your industry

Industry	What's built for you
Schools and colleges	Education edition: student and guardian records with personal data encrypted, admissions, attendance, exams and report cards, fees in INR, BDT or AED with receipts, and read-only parent links
Clinics and healthcare	Health edition: patient records with care-team access, consent, appointments with online booking and reminders, and billing
Manufacturers and pharma	Batch and expiry tracking, earliest-expiry-first picking, recall tracing, bills of materials and production runs, purchasing
Traders and distributors	Sales orders against live stock, delivery, invoicing, customer credit follow-up, purchase orders and supplier records

Packages and pilot prices

The pilot is open to 10 companies in each country. Pilot companies pay 30% less for all 6 months. All prices are per company, per month, in US dollars.

Package	Users	Standard price ($/month)	Pilot price ($/month, 6 months)	Pilot total ($, 6 months)
Starter	up to 2	7.99	5.59	33.54
Professional	up to 5	28.00	19.60	117.60
Business	up to 10	49.99	34.99	209.96
Enterprise	up to 25	799.00	559.30	3,355.80

- **Extra users:** $3 per user per month ($2.10 during the pilot), up to 3 extra on Starter, 10 on Professional, 15 on Business and 20 on Enterprise. For more users, move up a package. One package per company; you can upgrade at any time.
- **Setup, data import and training (one time):** pilot companies pay $29 (Starter) or $49 (other packages); the standard fee is $39 or $89.
- **After the pilot:** the standard price applies from month 7. Pilot companies keep that price for their first 12 months after the pilot, and an annual contract costs 10 months for 12.
- **Larger companies:** for more than 45 users, we prepare a custom quote.

How the pilot runs

Your team works in Inaya from week 2. We review together at month 3, and at month 6 you decide whether to continue. We start with people and day-to-day work, then move invoicing, purchasing and stock once your team is comfortable. Keep your accountant involved and run your current books in parallel until the figures match.

Data, security, support and payment

- **Encryption:** documents are encrypted on your own computer before they are uploaded, and every file is kept in two independent storage locations.
- **Backups:** your company's records are backed up daily, and the system is monitored around the clock.
- **Ownership:** you own your data and can export all of it at any time. When you leave, we delete it within 30 days of your request.
- **Support:** email and video call, Monday to Saturday, 10:00 to 19:00 Pakistan time (10:30–19:30 in India, 09:00–18:00 in the UAE, 13:00–22:00 in Singapore). Urgent issues within 2 hours; everything else by the next working day.
- **Payment:** monthly in advance by international bank transfer, against our invoice, in US dollars. Prices exclude any local taxes.
- **Pilot status:** some features still carry a "Beta" label, and we don't promise a fixed uptime percentage during the pilot. We tell you at least 7 days before any change that affects how you work.

How to join

Pilot places are limited so that every company gets proper attention. Reply to our email, or write to contact@inayanetwork.com, with your package choice and we start within a week. Watch the 4-minute demo first at inayanetwork.com/business/demo.
